

Waterloo, Ontario

"From the Front Lines of MEDA's Work"

Tuesday, November 3 at 6:00pm

Jenniffer Zapata from Columbia, will be [joining us in person](#) to share her firsthand stories from the frontlines of MEDA's work in Latin America, the Caribbean, and the Asia Pacific.

Jenniffer will give us a deep dive into what “business solutions to poverty” looks like right now on the ground—the challenges and the triumphs.

Jenniffer is a Regional Director for MEDA global programs and not only is she an agri-food business development expert, but she has a treasure trove of inspiring and thought-provoking lessons learned from working in community development.

Come join us for networking and brief program. Light refreshments will be served. We love when values-driven, business-minded folks connect!
